

LRI Report - Test Run

Phase 3 - Formulated Problem

For the practical problem (what/how/why)

Manual process causes recurring data delays.

In the context (where/when)

Product, support, and operations teams are impacted.

with the following implications / impacts (why)

Not provided.

For the stakeholders (who)

Not provided.

we have the following evidence (how)

Not provided.

And we want to investigate - objective (what/how)

Not provided.

Answering the following research questions (what)

Not provided.

Phase 4 - Assessment Averages

Value: 7.00 (1 responses)

Applicability: 6.00 (1 responses)

Feasibility: 5.00 (1 responses)

Decision

GO

The formulated problem received a 'Go' because of its high perceived relevance!
